

WHAT IS A STUDIO PARTY?

It's a 90 minute studio session - half an hour longer than our normal family sessions, built around the concept of three outfit changes and an awful lot of fun! 90 minutes may sound like a long time, but with group and individual portraits taken throughout three changes it flies by! Our theme guideline is "something casual, something dressy & something fun" and the party truly begins when the planning starts. How are you going to interpret the themes - especially when it comes to "something fun"? Have a look through our sample photos to get some ideas, but our challenge to you is to come up with something new!

The party atmosphere is complemented by an up-to-date soundtrack and soft drinks and nibbles in the changing room, The package also includes a free 8x6 inch print (value £25) of their choice for every guest, giving you unrivalled value for money.

After the big day the fun continues when the photographs are published in a private online gallery on our website, where you can choose your favourites and have a right good laugh! Although there's no obligation to purchase additional photos, copies are available as single prints, wall portraits and canvases, albums and increasingly popular digital packages. There really is something for everyone!

WHO CAN COME?

Same age friends from the age of 8 upwards. This age has been arrived at by experience as the intense nature of the party can be a bit intimidating for younger guests. Minimum number is four and the practical maximum is about 10/12 (although we have had a lot more sometimes!)

HOW MUCH DOES IT COST?

Only £15 a guest. And remember everyone gets a £25 photo. We must be mad! Even better, if you have five or more attending the birthday girl or bride to be goes free! (Min of 4 guests)

Studio Party Host's Offer

Claim a FREE 8x6 album worth £150!
